

Chair's Report:

The South West NRM Annual General Meeting was held recently, and it was a great opportunity to share the past year's achievements with our stakeholders. The year in review was to June 2016, and already significant activity has been happening in the 2016-2017 financial year. I encourage all our readers to get a copy of the Annual Report (see information and link below) to see why we are so proud of the company's achievements.

The arrangements with Condamine Alliance are working well and I look forward to negotiating a permanent arrangement when the trial period is over. Much of the success of the arrangement has come about because of the responsiveness of our joint CEO, Phil McCullough and I want to acknowledge his contribution here.

Our on ground activities are as active as ever, and you will see throughout this edition just how busy our staff actually are!

I want to make mention of Darren Jennings, South West Regional Landcare Facilitator, the quiet achiever. Since Darren has been at South West NRM, participation in and positive feedback about our workshops has been outstanding. Darren is one of the face to face staff who delivers great programs for our region - you will hear about some of his recent and upcoming workshops around the ridges throughout this edition. Thanks Darren.

Let's hope that the season is as good as we hope and that everyone has a happy and safe Christmas.

Cheers,
Mark

*Mark O'Brien
Chair
South West NRM Board*

Annual Report:

South West NRM's Annual Report to June 2016 is now available - please contact our office on (07) 4656 8500 or email office@swnrm.org.au to request a print copy. Alternatively, you can download a PDF copy (3.3MB) via the link below:
