for rural communities*

Weed Control Field Day

WHERE: Croxdale Station, Charleville. Croxdale is 12 km out of Charleville on the Quilpie Road. Watch for the South West NRM field day signs.

WHEN: Wednesday 29th of June 2016, 8:30 AM to 12:30 PM with morning tea and lunch provided.

COST: The cost of this workshop is covered by South West NRM.

TOPICS COVERED:

- Weeds of National Significance (WoNS) found in the South West NRM region.
- Weed ecology.
- Surveillance and early detection methods with appropriate mapping.
- Class 1 and 2 weed identification.
- New Biosecurity Act being implemented from 1st July 2016.
- How to collect and preserve weed specimens for identification.
- On ground treatment processes for effective herbicide application.
- Safe storage and handling of chemicals.
- Possible funding sources to assist land managers with on ground works.

This field day will be facilitated by Dr Melinda Laidlaw of the QLD Weed Spotters Network and the QLD Herbarium, and co-facilitated by Craig Alison of SWNRM and Dan McCudden of Biosecurity QLD.

To register your interest, please contact South West NRM on (07) 4656 8500 or email swnrm@swnrm.org.au.

Together, let's knock WoNS weeds in South West QLD!
